## MAGNETIC LASER BLADE 20MM

### ANKUR 20MM STANDARD MAGNETIC LINEAR LASERBLADE LED LIGHT

Introducing the Ankur 20mm Magnetic Linear Laserblade LED Light – where sleek design meets effortless flexibility. This ultra-slim profile light features a minimalist laserblade design that delivers a crisp, continuous glow, perfect for adding modern accent lighting to any space. With its powerful magnetic base, you can easily snap it onto any compatible 20mm track, allowing you to adjust, reposition, or expand your lighting in seconds.

Crafted from durable aluminum in a versatile black finish, this linear light is as sturdy as it is stylish. Available in two lengths and multiple color temperatures, it offers the perfect blend of form and function for both residential and commercial settings.

Magnetic Track Spot: Delivering focused brilliance with effortless flexibility, perfect for highlighting spaces with precision and modern elegance.
