## Glitz - Available in 2 Sizes

Cylindrical shape surface mounted ceiling light is a striking light feature that is perfect to use throughout all areas of your home. Made from aluminium which gives it great versatility with a contemporary feel. Mounted directly on the ceiling so requires no cut outs. Available in 2 sizes.

White

Black

The ANKUR LED Downlight is an architectural grade surface mounted downlight ideally suited for challenging environments with ceiling space limitations. This round surface mounted downlight combines a striking design with beautiful colour rendering to enhance any room. Its surface mounted construction makes this downlight ideal for installing onto flat ceiling surfaces.

A surface mount LED sits on top of a flat surface, such as a ceiling. Because of this, they can also be called ceiling lights; They're available in a variety of shapes and sizes and are perfect for applications where recessed lighting cannot be installed. It is easier to install, replace and remove surface-mounted light fixtures than recessed ones.
