SINGLE FLAP LIGHT

DOUBLE FLAP LIGHT

ANKUR OPTICAL SILICON LENS WINDOW SILL LIGHT

Outdoor Window sill lights are a popular lighting solution for enhancing the aesthetic appeal of windows and facades. To ensure longevity and reliable performance in outdoor environments, these lights often come with IP65 protection, which makes them dust-tight and protected against water jets. Single flap light washes the window area from front and forms a frame, While The double flap window sill light design takes the aesthetics a step further, creating a pronounced and eye-catching frame effect around the window or facade.

Its Two Dimensional light and one can choice between single flap and double flap designs depends on the desired lighting effect and the architectural context of the building.
